Employee Health and Personal Hygiene

Policy: All foodservice employees will maintain good personal hygiene practices to ensure food safety.

Procedures: All employees in school foodservice must:

Grooming:
1. Arrive at work clean — clean hair, teeth brushed, bathe and use deodorant daily.
2. Maintain short, clean, and polish-free fingernails. No artificial nails are permitted in the food production area.
3. Wash hands (including under fingernails) and up to forearms vigorously and thoroughly with soap and warm water for a minimum of 20 seconds:
   - When entering the facility before work begins.
   - Immediately before preparing food or handling equipment.
   - As often as necessary during food preparation when contamination occurs.
   - In the restroom after toilet use, and when you return to your work station.
   - When switching between working with raw foods and working with ready-to-eat or cooked foods.
   - After touching face, nose, hair, or any other body part, and after sneezing or coughing.
   - After cleaning duties.
   - Between each task performed and after changing disposable gloves.
   - After smoking, eating, or drinking.
   - Any other time an unsanitary task has been performed — i.e. taking out garbage, handling cleaning chemicals, wiping tables, picking up a dropped food item, etc.
4. Wash hands only in hand sinks designed for that purpose.
5. Dry hands with single use towels. Turn off faucets in a sanitary fashion using a paper towel, in order to prevent recontamination of clean hands.

Proper Attire:
1. Wear appropriate clothing — clean uniform with sleeves and clean non-skid close-toed work shoes (or leather tennis shoes) that are comfortable for standing and working on floors that can be slippery.
2. Wear school-issued apron on site:
   - Do not wear apron to and from work.
   - Take off apron before using the restroom.

Policy last revised on: 7-08-2018
• Change apron if it becomes soiled or stained.

3. Wear disposable gloves with any cuts, sores, rashes, or lesions. Gloves generally are worn when handling ready-to-eat foods that will not be heat-treated again. Gloves should be worn when serving food.

4. Change disposable gloves as often as handwashing is required. Wash hands after discarding gloves.

Hair Restraints and Jewelry:
1. Wear a hair net or bonnet in any food production area so that all hair is completely covered.
2. Keep beards and mustaches neat and trimmed. Beard restraints are required.
3. Refrain from wearing jewelry in the food production area.
   • Only a plain wedding band and a watch are permitted.
   • No necklaces, bracelets, or dangling jewelry are permitted.
   • No earrings or piercings that can be removed are permitted.

Illness:
1. Report any flu-like symptoms, diarrhea, and/or vomiting to the unit supervisor. Employees with these symptoms will be sent home, or reassigned non-food related duties or sick leave, whichever is most appropriate. Instances of Hepatitis A, Salmonella Typhi, Shigella, or E. Coli O157:H7 must be reported to the unit supervisor.

Cuts, Abrasions, and Burns:
1. Bandage any cut, abrasion, or burn that has broken the skin.
2. Cover bandages on hands with gloves and finger cots as appropriate.
3. Inform unit supervisor of all wounds.

Smoking, eating, and gum chewing:
1. Smoke only in designated areas. No smoking or chewing tobacco shall occur inside production facilities.
2. Eat and drink in designated areas only. A closed beverage container may be used in the production area.
3. Refrain from chewing gum or eating candy during work in a food production area.
REA Food Safety Policy

Handwashing

Policy: All food production personnel will follow proper handwashing practices to ensure the safety of food served to children.

Procedures: All employees in school foodservice should wash hands using the following steps:

1. Wash hands (including under the fingernails) and forearms vigorously and thoroughly with soap and warm water (a temperature of at least 110°F is required) for a minimum of 20 seconds.
2. Wash with soap – either liquid or powder soap.
3. Use a sanitary nail brush to get under fingernails.
4. Wash between fingers thoroughly.
5. Use only hand sinks designed for that purpose. Do not wash hands in sinks in the production area.
6. Dry hands with single use towels or a mechanical hot dryer. (Retractable cloth towel dispenser systems are not recommended.) Turn off faucets in a sanitary fashion using a paper towel in order to prevent recontamination of clean hands.

The unit supervisor will:

1. Monitor all employees to ensure that they are following proper procedures.
2. Ensure adequate supplies are available for proper handwashing.
3. Follow up as necessary.

Policy last revised on: _______
1. Inspect employees when they report to work to be sure they are following proper hygiene requirements.
2. Follow up as necessary.
